

Washington Rural Counties Insurance Program

Pre Litigation Program

Helping You Maintain Your Focus

In today's litigious climate, every organization faces increasingly complex and challenging legal issues, all while trying to conduct basic day-to-day operations. In addition, due to the complexity of laws and court rulings, it is very expensive and time consuming to stay apprised of the changes and updates in the laws that could potentially impact your entity.

Providing Direction

Our Pre Litigation Program is designed to provide technical assistance as legal issues arise and to assist your leaders as they work through difficult problems. Our goal is to help minimize your legal expenses and increase the likelihood of the desired outcome in any subsequent claim or administrative hearing process. The Pre Litigation Program provides you the opportunity to consult with experienced professionals that can offer a calm voice of reassurance and direction at no additional cost. To learn more visit www.wrcip.us or call us direct for more details at 800.407.2027.

Taking the Right Step

We provide a wide variety of pre-litigation approaches, each of which is designed to meet your specific needs. The following are general steps of the pre-litigation process:

- Utilize alternative risk management services where needed, which include Educational Services and Risk Control
- Meet with a Pre Litigation Program Consultant to review the situation at the onset of an issue
- Review policies and supporting documents relative to the issue
- Review a detailed outline of the organization's actions to date
- Review procedures and legal requirements
