ABOUT THE POOL

The Washington Rural Counties Insurance Program was formed through an inter-local agreement between several rural counties in 1998. The agreement allowed the joint purchase of insurance, joint self-insuring, joint hiring or contracting for risk management services and claims administration. The Pool contracts with a private firm for claims administration, insurance broker and risk management services and has no employees of its own.

An eight-member Board of Directors governs the Pool. Each county has one representative on the Board of Directors. The Pool operates under state law (Chapter 48.62 RCW) and must seek approval from the state Office of Risk Management within the Department of Enterprise Services for changes in its operation. For fiscal year 2012-2013, the Pool operated on a budget of approximately \$3.6 million.

ABOUT THE STATE AUDITOR'S OFFICE

The State Auditor's Office is established in the state's Constitution and is part of the executive branch of state government. The State Auditor is elected by the citizens of Washington and serves four-year terms.

We work with our audit clients and citizens as an advocate for government accountability. As an elected agency, the State Auditor's Office has the independence necessary to objectively perform audits and investigations. Our audits are designed to comply with professional standards as well as to satisfy the requirements of federal, state, and local laws.

The State Auditor's Office employees are located around the state to deliver services effectively and efficiently.

Our audits look at financial information and compliance with state, federal and local laws on the part of all local governments, including schools, and all state agencies, including institutions of higher education. In addition, we conduct performance audits of state agencies and local governments and fraud, whistleblower and citizen hotline investigations.

The results of our work are widely distributed through a variety of reports, which are available on our Web site and through our free, electronic subscription service.

We take our role as partners in accountability seriously. We provide training and technical assistance to governments and have an extensive quality assurance program.
